Vermillion, S. D.

Dear Sir:

In reply to your letter of July 15th, regret to advise that we do not recommend our Roof Coating, as advertised in the Saturday Evening Post, for a shingled roof.

The product might give the desired results if the leaks are reached, but owing to the unevenness of a shingled roof this is not easy to accomplish, and is very largely a case of workmanship. It was designed for all types of smooth surfaced roofs. See circular attached.

Very truly yours,

RUTLAND FIRE CLAY COMPANY.
